WAKAYAMA UNIVERSITY

since 1949

E

Education

The Faculty of Education aims to assist students to develop an in-depth understanding of humanity; specialized expertise in specific subject areas; and high-level practical teaching abilities so that as educators, students can support the learning experiences of future generations.

- UG •Elementary and Secondary Education
- Special and Inclusive Education

- PG •School Improvement and Management
- Specialist in a school subject area
- Special Needs Education
- Training and Development of pre-service teachers

WAKAYAMA UNIVERSITY

since 1949

E

Economics

The Faculty of Economics welcomed its first students in 1922. Today, it remains committed to its mission to nurture human resources equipped with the essential knowledge and systematic understanding about the economic dynamics and managerial practices. The educational programs are designed to develop the critical thinking and analytical skills required to address complex socio-economic challenges with the necessary clarity of thought and sensible judgement.

- UG •Global Business and Economy
- Business Design
- Business Accounting and Tax Law
- Regional Public Policies and Public Utilities
- Sustainable Economy

- PG •Energy Analytics and Policies
- Islamic Finance and Economics
- Urban Business Design
- Urban and Regional Development and Transportation
- Accounting, Taxation and Consulting
- Global Business Management
- Global Political Economy
- Sustainable Agribusiness and Food Systems

S

Systems Engineering

The mission of the Faculty of Systems Engineering is to equip students with the ability to respond to the current engineering demands and issues with a wide-ranging perspective and innovative problem-solving skills. Students will acquire insight into their specialized field as well as interdisciplinary knowledge and the ability to communicate and collaborate with diverse stakeholders.

- UG •Robotics
- Electronics and Applied Physics
- Chemistry
- Environmental Science
- Architecture and Landscape
- Information Systems Design
- Network Computing
- Extended Reality / Information Design

- PG •Communication Science
- Advanced Informatics and Mechatronics
- Intelligence Science
- Design Science
- System Intelligence
- Nanomaterials
- Nanotechnology
- Intelligent Modeling

T

Tourism

- UG •Tourism Management
- Regional Revitalization
- Tourism and Culture
- PG •Tourism
- Destination Management

The Faculty of Tourism aims to prepare students to gain awareness of the overall structure of the discipline of tourism; understand the interrelationships between three fields of expertise: Tourism Management, Regional Revitalization, and Tourism Culture; and demonstrate in-depth knowledge of one of these fields as an area of specialization.

S

Socio-Informatics

The School of Socio-Informatics aims to equip students with the broad multidisciplinary perspectives needed to revitalize society based on the fundamental knowledge in specialized fields and academic skills required for data science and problem-solving purposes.

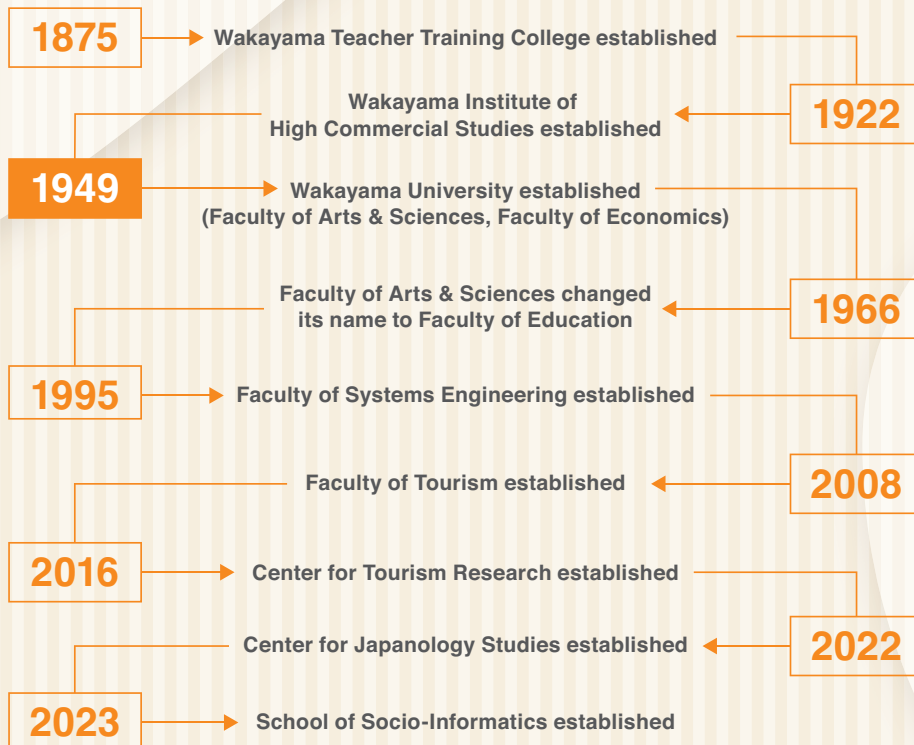

Our Global Outreach Strategy aims at attracting and developing the best minds irrespective of race, ethnicity, or cultural backgrounds to create a diverse campus of Japanese and international academia and knowledge partners driven by the synergies of global interactions and intellectual curiosity. We cordially invite you to join our expanding network and participate, within our conducive learning environment, into unique educational and research programs strategically designed to promote innovative multidisciplinary endeavours and advance international dialogue.

本山貢

18th President of Wakayama University

Brief History of Wakayama University

Institute for Global Initiatives

WAKAYAMA UNIVERSITY

IGI is committed to the promotion of international education and research through strategic initiatives that cultivate synergetic connections with an expanding network of global partners in knowledge sharing and educational collaboration.

Wakayama University Center for Japanology Studies

The mission of CJS is to create the community beyond borders and nationalities. The Center is determined to develop applied Japanese studies and provide a wide range of support services for international students through education and research activities on the Japanese language, Japanese culture, and international cooperation.

Wakayama University Center for Tourism Research

The purpose of the CTR is to enhance and advance educational and research activities in tourism and to play a pivotal role as a hub for tourism studies. The center also aims to contribute to the globalization of the University.
